

THE UNIVERSITY OF
MISSISSIPPI

Student Health Services

Student Health Services is committed to providing students with affordable, quality health. In partnership with the Associated Student Body, a list of common procedure codes, their description, and the associated charge for our clinic is below.

We understand that healthcare billing is complicated. More than just a list of prices is needed to make informed decisions. That is why we encourage students to call or visit us to discuss financial concerns before, during, or after a visit. Please know that any insurance you have will be filed first. After insurance has paid, only what is contractually owed will be billed to your bursar. This can vary by the insurances that we are in-network with. **After filing insurance, you may owe less or nothing at all than the listed prices below.** Remember, there is **NO OFFICE VISIT FEE** for our services, which greatly reduces overall costs.

Students who do not have insurance or wish to be self-pay will receive a good-faith estimate of charges before their visit. Please visit [our website](#) for more information about the No Surprise Act. There is also funding, thanks to a generous gift by the [Family Leadership Council](#) through the University Medical Expense Fund (UMEF). Students meeting certain criteria (those without insurance, state or federal plans, other financial needs, etc.) can apply and have expenses incurred at Student Health Services covered.

For more information, please contact the [Wellness Navigator](#) at the William Magee Center.

A special thanks to ASB Senator Eron Hendrix and the Committee on Student Life for their partnership and support.

Disclaimer: Prices are subject to change without notice due to contract negotiations, increased costs, or other adjustments. The prices below may not reflect current state. Please contact Student Health Services directly for up-to-date pricing.
